

VERTICAL LUXURY

"A white granite benchtop demands attention, creating the sense of luxury the owners desired. We chose a tiled splashback in a brickwork pattern to frame the Ascot range oven and add textural interest. Floor-to-ceiling cupboards deliver an abundance of storage where space is at a premium. Their handsome classic looks are echoed by colonial kickboards, mouldings and panelling. A fastidious attention to detail and quality finishes complete the look."

Designer: Steding Interiors and Joinery
