With the company's fine craftsmanship and incredible attention to detail, Steding Interiors & Joinery has a reputation for bringing a piece of history back to life. So when the owners of this space were looking to install a French provincial kitchen, Steding Interiors & Joinery was the perfect choice.

Working closely with the client, the team at Steding Interiors & Joinery came up with this stunning, one-off design. Ornamental characteristics, such as the hand-carved corbels, cornices, skirts and fluted columns, were created to reflect the personality of the home and the owner.

Ample storage is provided by a host of cabinets and drawers, which are awash in gorgeous creamy tones and contrast beautifully with the Kashmir

Gold benchtop and Tasmanian oak parquetry floor.

In order to achieve an opulent aesthetic, only the highest-quality fixtures were used. Tudor Florentine bronze handles and exposed hinges were included in the design for an authentic look and feel.

The owners couldn't be more delighted with their new "old" kitchen.
